INDEX TO VOLUME IV

AERODYNAMICS
See also Gas Dynamics, Noise, Screens and Wind Tunnels.
Aerofoil Theory for Swallow Tail Wings of Small Aspect Ratio, A. Robinson, p. 69 (August 1952).
On the Conditions under which Energy can be Extracted from an Air Stream by an Oscillating Aerofoil, N. C. Lambourne, p. 54 (August 1952).
On the Low Aspect Ratio Oscillating Rectangular Wing in Supersonic Flow, John W. Miles, p. 231 (August 1953).
Some Aspects of Laminar Boundary Layer Separation in Compressible Flow with No Heat Transfer to the Wall, G. E. Gadd, p. 123 (February 1953).
Supersonic Flow Past Wing-Body Combinations, W. Chester, p. 287 (August 1953).
The Distribution of Lift over the Surface of Swept Wings, D. Küchemann, p. 261 (August 1953).
The Dust Problem in Hot-Wire Anemometry, D. C. Collis, p. 93 (August 1952).
The Flow Past Elliptic-nosed Cylinders and Bodies of Revolution in Supersonic Air Streams. D. W. Holder and A. Chinneck, p. 317 (February 1954).
The Sensitivity and Range Required in a Toepler Schlieren Apparatus for Photography of High-Speed Air Flow, W. A. Mair, p. 19 (August 1952).
Note on Mr. Mair's paper, D. W. Holder and R. J. North, p. 51 (August 1952).

CHESTER, W.
Supersonic Flow Past Wing-Body Combinations, p. 287 (August 1953).

CHILVER, A. H.
A Generalised Approach to the Local Instability of Certain Thin-Walled Struts, p. 245 (August 1953).

CHINNECK, A. and D. W. HOLDER
The Flow Past Elliptic-nosed Cylinders and Bodies of Revolution in Supersonic Air Streams, p. 317 (February 1954).

COLLIS, D. C.
The Dust Problem in Hot-Wire Anemometry, p. 93 (August 1952).

COX, H. L. and J. E. FIELD
The Initiation and Propagation of Fatigue Cracks in Mild Steel Pieces of Square Section, p. 1 (August 1952).

DAWSON, L. G.
Flow Changes in Gases in which Mass and Impulse are Conserved, p. 193 (February 1953).

DUCTED FANS
A Note on the Performance of Ducted Fans, Bryan Thwaites, p. 179 (February 1953).

DUST ON HOT-WIRE ANEMOMETERS
See Aerodynamics.

FATIGUE
The Initiation and Propagation of Fatigue Cracks in Mild Steel Pieces of Square Section, H. L. Cox and J. E. Field, p. 1 (August 1952).

FIELD EQUATIONS
The Arithmetic of Field Equations, A. Thom, p. 205 (August 1953).

FIELD, J. E. and H. L. COX
The Initiation and Propagation of Fatigue Cracks in Mild Steel Pieces of Square Section, p. 1 (August 1952).

GADD, G. E.
Some Aspects of Laminar Boundary Layer Separation in Compressible Flow with No Heat Transfer to the Wall, p. 123 (February 1953).

GAS DYNAMICS
See also Wind Tunnels.
Adiabatic One-Dimensional Flow of a Perfect Gas through a Rotating Tube of Uniform Cross Section, K. Kestin and S. K. Zaremba, p. 373 (February 1954).
Flow Changes in Gases in which Mass and Impulse are Conserved, L. G. Dawson, p. 193 (February 1953).

GAUZES
See Screens.

GOODEY, W. J.
Note on the Stabilisation of Long Struts by an Elastic Medium, p. 279 (August 1953).

HOLDER, D. W. and A. CHINNECK
The Flow Past Elliptic-nosed Cylinders and Bodies of Revolution in Supersonic Air Streams, p. 317 (February 1954).

HOLDER, D. W. and R. J. NORTH
Note on Mr. Mair's Paper, p. 51 (August 1952).

INSTRUMENTS AND INSTRUMENTATION
See also Aerodynamics.
Apparatus for the Remote Recording of Flow Conditions, K. W. Todd, p. 401 (February 1954).

IRVING, F. G.
A Note on the Theory of the Constant-Area Mixing of Compressible Flows as Applied to High-Speed Wind Tunnel Design, p. 164 (February 1953).
Erratum, p. 418 (February 1954).

KESTIN, K. and S. K. ZAREMBA
Adiabatic One-Dimensional Flow of a Perfect Gas through a Rotating Tube of Uniform Cross Section, p. 373 (February 1954).

KUCHEMANN, D.
The Distribution of Lift over the Surface of Swept Wings, p. 261 (August 1953).

LAMBOURNE, N. C.
On the Conditions under which Energy can be Extracted from an Air Stream by an Oscillating Aerofoil, p. 54 (August 1952).

MAIR, W. A.
The Sensitivity and Range Required in a Toepler Schlieren Apparatus for Photography of High-Speed Air Flow, p. 19 (August 1952).

METALLURGY
See Fatigue.

MILES, JOHN W.
On the Low Aspect Ratio Oscillating Rectangular Wing in Supersonic Flow, p. 231 (August 1953).

NOISE
On the Noise Emanating from a Two-Dimensional Jet Above the Critical Pressure, Alan Powell, p. 103 (February 1953).
The Influence of the Exit Velocity Profile on the Noise of a Jet, Alan Powell, p. 341 (February 1954).

NORTH, R. J. and D. W. HOLDER
Note on Mr. Mair's Paper, p. 51 (August 1952).

POWELL, ALAN
On the Noise Emanating from a Two-Dimensional Jet Above the Critical Pressure, p. 103 (February 1953).
The Influence of the Exit Velocity Profile on the Noise of a Jet, p. 341 (February 1954).

ROBINSON, A.
Aerofoil Theory for Swallow-Tail Wings of Small Aspect Ratio, p. 69 (August 1952).

SCHLIEREN PHOTOGRAPHS
See Aerodynamics.

SCREENS
On the Resistance of Screens, K. E. G. Wieghardt, p. 186 (February 1953).

SQUARES, METHOD OF
See Field Equations.

STRUCTURES
A Generalised Approach to the Local Instability of Certain Thin-Walled Struts, A. H. Chilver, p. 245 (August 1953).
Buckling of Oblique Plates with Clamped Edges under Uniform Compression, W. H. Wittrick, p. 151 (February 1953).
Correlation Between some Stability Problems for Orthotropic and Isotropic Plates under Bi-Axial and Uni-Axial Direct Stress, W. H. Wittrick, p. 83 (August 1952).
Note on the Stabilisation of Long Struts by an Elastic Medium, W. J. Goodey, p. 279 (August 1953).

SWALLOW TAIL WINGS
See Aerodynamics.

THOM, A.
The Arithmetic of Field Equations, p. 205 (August 1953).

THWAITES, BRYAN
A Note on the Performance of Ducted Fans, p. 179 (February 1953).

TODD, K. W.
Apparatus for the Remote Recording of Flow Conditions, p. 401 (February 1954).

WIEGHARDT, K. E. G.
On the Resistance of Screens, p. 186 (February 1953).

WIND TUNNELS
A Note on the Theory of the Constant-Area Mixing of Compressible Flows as Applied to High-Speed Wind Tunnel Design, F. G. Irving, p. 164 (February 1953). *Erratum*, p. 416 (February 1954).
The Second Order Terms in Two-Dimensional Tunnel Blockage, L. C. Woods, p. 361 (February 1954).

WITTRICK, W. H.
Buckling of Oblique Plates with Clamped Edges under Uniform Compression, p. 151 (February 1953).
Correlation Between some Stability Problems for Orthotropic and Isotropic Plates under Bi-Axial and Uni-Axial Direct Stress, p. 83 (August 1952).

WOODS, L. C.
The Second Order Terms in Two-Dimensional Tunnel Blockage, p. 361 (February 1954).

ZAREMBA, S. K. and K. KESTIN
Adiabatic One-Dimensional Flow of a Perfect Gas through a Rotating Tube of Uniform Cross Section, p. 373 (February 1954).
